# Enriching Learning Experiences beyond the Classroom

We are thrilled to unveil the comprehensive details of our highly anticipated 2025 AISL Outdoor Year Round Programme, a dynamic initiative where adventure and education intertwine to create truly unforgettable experiences for young minds. As the strategic partner and service provider for the esteemed Asia International School Limited (AISL), AISL Outdoor is passionately dedicated to fostering holistic growth and learning beyond the traditional classroom setting.

This year, we are excited to offer an expansive portfolio of over 100 programmes, meticulously tailored to cater to diverse interests and age groups. Our carefully curated camp experiences are organised into ten distinct themes, each designed to challenge, inspire, and nurture the innate curiosity of our participants. Whether honing artistic talents, developing survival skills, or exploring scientific wonders, our camps provide an enriching platform for exploration, discovery, and deep learning that transcends conventional education.

We are particularly excited to announce that the 2025 AISL Outdoor Year Round Programme will be hosted across multiple picturesque locations in AISL Harrow Schools, each chosen for its unique natural landscape and excellent facilities. This ensures a safe, engaging, and holistic outdoor learning environment, allowing participants to connect with nature while enhancing their educational journey.

In this brochure, you will discover a wealth of offerings, from adrenaline-fuelled adventures to serene environmental explorations. Each experience is thoughtfully designed to promote learning beyond the classroom, where practical skills meet real-world applications in the most enriching ways. Our programmes encourage teamwork, resilience, and creativity, allowing participants to grow not just academically but personally as well.

We look forward to welcoming young adventurers to a year filled with growth, discovery, and excitement. Join us on this transformative journey that promises to inspire and enrich the educational experience!

AISL OUTDOOR EDUCATION FOR SUMMER CAMP

# SUMMER CAMPS

# ACCREDITATION MASTER CLASS

- Aqua Adventure: Kayaking and Sailing
- Cambridge Connect (Public Speaking)
- PADI Junior Open Water Diver
- PADI Seal Team
- ROV with IEEE

# Aqua Adventure: Kayaking and Sailing

This meticulously designed programme offers novices an engaging introduction to the exhilarating sports of dinghy sailing and kayaking, allowing participants to gain fundamental skills and achieve certifications in Sailing Level 1 and kayaking awards, including the Junior Kayak Starfish, Sea Horse, and Seal Course. Covering essential skills such as boat handling, rigging, and capsizing recovery, as well as the basics of meteorology, the programme gently guides students through their sailing journey. Simultaneously, they will progress in kayaking, building confidence and proficiency on the water through practical lessons focused on safety, paddling techniques, and advanced strokes.

## CAMP DETAILS

**Age Group:**  
8 - 12 years old

# Cambridge Connect (Public Speaking)

Set against the backdrop of the intellectual rigour of Pembroke College, University of Cambridge, participants will engage in a week-long intensive programme that blends academic excellence with the art of persuasive communication. Upon successful completion, students will receive a Certificate of Completion co-branded with the prestigious Pembroke College logo, recognising their dedication and the sophisticated skills developed during the camp. Expert instructors, handpicked for their exceptional oratory skills, will guide participants through a nurturing yet challenging environment, fostering their public speaking talents.

The programme features a personalised curriculum that emphasises self-expression and persuasion. Instructors will conduct one-on-one sessions, helping students craft their unique speaking styles while enhancing their ability to communicate effectively. Workshops will incorporate Cambridge's renowned teaching methods, providing tailored feedback to refine each student's skills. Additionally, focused mentorship will pair every participant with a dedicated mentor, encouraging personal development and boosting confidence. This collaborative approach ensures that students feel comfortable taking risks, receiving constructive feedback, and celebrating their progress towards becoming highly effective communicators.

# PADI Junior Open Water Diver

The programme provides an exciting pathway for young enthusiasts to become internationally recognised divers. Conducted by qualified and experienced instructors from the world's leading scuba diving education organisation, PADI, this programme offers a comprehensive introduction to essential diving skills and knowledge through both theoretical and practical training. Participants will engage in a structured curriculum that includes academic lessons, confined water training, and open water experiences, ensuring a safe and professional approach to diving. This course not only builds confidence in the water but also lays the foundation for lifelong diving adventures.

## ■ CAMP DETAILS

# PADI Seal Team

This programme offers an exhilarating introduction to the world of diving for students, filled with adventure and discovery. Designed to engage young explorers, this structured programme allows participants to swim underwater while developing essential scuba skills and knowledge. To become official PADI Seal Team members, students complete the first five of 15 AquaMissions, each comprising a briefing, skill session, and fun activity. As they progress, participants learn through the PADI Seal Team video, AquaMission Activity Book, and guidance from their PADI Instructor. Completing these AquaMissions not only earns them AquaMission decals but also equates to vital skills from the Open Water Diver Course. Upon finishing the missions, students receive a PADI Master Seal Team certificate, recognising their achievements.

# ROV with IEEE

Partnered with the Institute of Electrical and Electronic Engineers (IEEE), the programme aims to educate students about the significance of marine conservation while equipping them with the skills to build and operate Remotely Operated Underwater Vehicles (ROVs). Over the course of the camp, students will explore ROV technology through engaging hands-on workshops, starting with assembling a Mini-ROV. They will progress to constructing a Basic ROV from scratch, fostering creativity and problem-solving skills, before testing their creations in a pool environment.

The capstone event, the Marine Debris Showdown, transforms the school pool into a simulated oceanic arena where students will manoeuvre their ROVs to collect simulated debris, such as plastic bags and soda cans. This exhilarating challenge not only tests the functionality and precision of their designs but also reinforces the importance of technology in addressing real-world environmental issues. Upon completion, all students will receive an IEEE Certificate of Participation, recognising their achievements in ROV building. This experience not only enhances their understanding of STEM principles but also opens doors to further educational pursuits and competitions, empowering them to contribute positively to marine conservation efforts.

# ADVENTURES

- Appi Alpine Quest
- Junior Coastal Ecologist
- Swiss Geography & Sustainability Retreat

## Appi Alpine Quest

Nestled in the tranquil embrace of Japan's captivating landscapes, this odyssey invites young explorers to immerse themselves in the great outdoors, cultural wonders, and a journey of self-discovery. Set in the heart of the vibrant Hachimantai mountains, Appi Kogen serves as a picturesque backdrop, offering lush forests, rolling hills, and sparkling streams that create a serene haven for adventure and reflection. Participants will enjoy a unique residential school experience at AISL Harrow Appi, blending education, nature, and alpine sports in an inspiring environment.

Throughout the camp, students will embark on guided nature treks, gaining insights into the ecosystem while participating in conservation workshops focused on sustainability. They will sharpen their survival skills through practical lessons and take part in exhilarating mountain biking excursions that promote teamwork and camaraderie. Cultural immersion is also a key highlight, with hands-on community service projects that allow participants to make a positive impact and engage in traditional crafts. The camp culminates in a final adventure that tests their skills and bravery, followed by a reflective gathering and celebratory feast, marking the end of an unforgettable journey filled with growth and connection.

ENROL NOW

# Swiss Geography & Sustainability Retreat

This programme offers a wealth of hidden values, encouraging participants to collaborate as they tackle various challenges. Participants will engage with three key objectives: understanding sustainable practices and environmental conservation, developing outdoor skills while fostering a connection with nature, and promoting teamwork and leadership through adventure activities. These objectives will come to life through a variety of exciting experiences designed to enrich participants' understanding of the environment and strengthen their collaborative skills.

Highlights of the programme include a visit to Europe's highest zoo, exploration of the stunning Gorges du Durnan, and a guided tour of a ski lift to learn about the mechanics of ski resorts. Supervised mountain guides will lead nature hikes to discover the unique fauna and flora of the Alps, while mountain biking at 2,200 metres will provide breathtaking views. Participants will also navigate Europe's largest underground lake, visit Swiss glaciers to understand the impacts of climate change, and explore a dam to learn about hydropower. Accommodation will be at La Tzoumaz Campus, situated at 1,500 metres, offering stunning views of the Rhone Valley and convenient access to lifts reaching the Mont-Fort glacier at 3,300 metres, making it the ideal tranquil escape in the French-speaking Swiss Alps.

# ARTS

- A Class Act (Cooking)
- A Class Act (Qipao Making)
- A Class Act (Theatre)
- Oxford and Cambridge Choral Academy (HK Children School)

## A Class Act (Cooking)

This immersive culinary programme offers participants the opportunity to learn a variety of cooking techniques from professional chefs while exploring the rich food cultures, histories, and signature dishes of Thailand, Italy, and Japan. Skills will be enhanced in a state-of-the-art facility, with a curriculum that includes hygiene and safety training, mock market visits, and engaging activities such as mysterious boxes, games, and a mini cooking competition. Participants will experience hands-on cooking classes featuring Italian favourites like handmade fresh pasta and seasoned ricotta cheese, Japanese dishes such as royal project tomato juice miso soup and mixed rice with Tilapia, and delightful Thai recipes like Surin rice salad and steamed egg with southern shrimp. The programme culminates in a certificate ceremony to celebrate achievements and inspire an entrepreneurial mindset and career aspirations in the culinary arts.

# A Class Act (Theatre)

The programme leverages the London Academy of Music and Dramatic Art (LAMDA) syllabuses to create a comprehensive and immersive camp experience conducted in English. The aim is to empower students to **develop a powerful, clear speaking voice, refine their presentation skills,** and become adept at reading and **expressing body language effectively.**

The programme culminates in a compelling Musical Theatre production, tailored to the ages and understanding of the participants. Rehearsals are seamlessly integrated into the camp schedule, leading to a grand stage performance on the final day, where friends and family are invited to witness the achievements of the stars. Through this journey, participants will memorise songs, improve listening skills, master vocal techniques, and explore character physicality— all while gaining a deeper understanding of musical expression and theatrical vocabulary.

## Oxford and Cambridge Choral Academy

Offered in collaboration with **The Oxford & Cambridge Singing School**, founded by Dr. Edward Wickham—Director of Music at St Catharine’s College, University of Cambridge—this initiative is delivered by Oxbridge academics and top UK educators. This programme provides unparalleled instruction in musical excellence, English language learning, personal growth, and cultural enrichment, ensuring a holistic learning environment.

Participants will refine their musical skills while exploring Shakespeare’s lyrics, English culture, and the historical role of music in popular culture. The programme is designed to build confidence and public speaking abilities through creative expression. Students can bring their own instruments to join the “ensemble-from-scratch” stream, collaborating with peers to create new compositions. The experience is not solely about learning; it is about gaining confidence and skills through active participation. In the best tradition of British residential experiences, participants will also enjoy sports and activity sessions that foster teamwork, resilience, and fun.

Guided by world-class educators and under Dr. Wickham’s innovative approach, students will develop confidence in their voices, both figuratively and literally, while engaging deeply with English culture and language in an inspiring environment. The experience culminates in a concert performance where students can showcase their achievements to peers and mentors. Whether on stage, in class, or on the sports field, the Oxford & Cambridge Choral Academy delivers an exceptional blend of rigour, creativity, and joy, ensuring students leave with lifelong skills and unforgettable memories.

# COMMUNICATIONS

- English Immersion Programme  
(Beginner, Intermediate and Advanced)

# English Immersion Programme (Beginner, Intermediate and Advanced)

Divided into Beginner, Intermediate, and Advanced levels based on approximate IELTS scores, the programme enhances speaking and presentation skills through immersive English activities. Participants engage in hands-on tasks, writing components, and a mock IELTS test, all guided by a team of qualified staff, including British Oxbridge graduates and experienced teachers.

With a focus on theme-based learning, students explore topics such as pronunciation, British history, and creative writing, fostering collaboration and critical thinking. The programme culminates in final presentations, ensuring participants not only improve their language proficiency but also gain insights into British culture and history.

Featuring small class sizes, sports, cultural workshops, and evening programmes like movie nights and quiz competitions, this camp creates an engaging environment. Participants will leave equipped with the confidence and skills necessary for academic and professional success, making this an unforgettable opportunity to enhance their English proficiency while immersing themselves in a vibrant cultural experience.

## Young LAMDA Learners

This engaging programme encourages our youngest learners to explore and enhance their communication skills through playful interactive games and poetry recitals. Drawing on the London Academy of Music and Dramatic Art (LAMDA) syllabuses, this comprehensive day camp, conducted in English, empowers participants to develop a powerful, clear speaking voice, fine-tune their presentation skills, and effectively express body language. The all-encompassing approach ensures that future leaders gain a significant edge in an ever-competitive landscape. Students will recite poems with confidence, develop clarity of diction, improve their posture, and exhibit appropriate body language. In the spotlight of the Young LAMDA Learners programme, participants will bring to life choral speaking pieces and may have the opportunity to perform solo, duo, or trio excerpts.

- Where the Past Meets the Future

# Aiming High: Oxbridge Foundation

This immersive experience ignites and fosters a passion for learning, exposing students to new concepts and knowledge that can help them discover interests they may not have previously considered. Through engaging with diverse fields such as Politics, Medicine, Psychology, and Engineering, students enhance critical skills like research, problem-solving, and independent study—essential for academic success at A-level and university. This early exploration boosts students' confidence and readiness for higher education, facilitating a smoother transition into their future academic pursuits.

The programme offers a focused learning experience through a combination of workshops, interactive sessions, and practical exercises, all delivered in small seminar groups to mirror the Oxbridge tutorial system. Students gain unparalleled access to leading universities, enjoying personalised tours, dining experiences, and insights from current students, all while receiving individualised mentorship from educators and specialists from G5 universities. These intimate settings promote deep intellectual engagement and academic achievement. Additionally, the programme incorporates supercurricular enrichment activities that blend social interaction, teamwork, and leadership skills, inspired by esteemed Cambridge and Oxford societies. With opportunities for sports and physical activities, students not only develop their academic competencies but also foster personal well-being and character building, preparing them to become critical thinkers and active citizens.

# Foundations of the Future (AISL Harrow Students Only)

The programme offers students a unique opportunity to immerse themselves in British culture, history, and excellence through a series of engaging activities and excursions. Participants will explore the rich legacies of trailblazers in fields such as literature, science, and innovation while developing essential skills for the future. By residing in boarding houses at Sherborne School, students will gain firsthand experience of the routines and traditions of leading British boarding schools, fostering independence and camaraderie. The curriculum, themed around pivotal moments in British history, connects students with significant figures from the past while igniting curiosity about contemporary innovations.

Throughout the programme, students will engage in a dynamic blend of academic and cultural enrichment, including interactive workshops led by native English-speaking teachers. These workshops are designed to enhance English language proficiency, cultivate leadership skills, and promote teamwork through challenging collaborative activities. Excursions to local attractions, including two trips to London, will further enrich their experience, allowing them to explore the UK's cultural heritage. The programme culminates in a visit to Harrow School, where students will tour historic buildings that have inspired generations, gaining invaluable insights into the traditions and legacy of one of the UK's most prestigious schools.

# Hong Kong University Navigator

The programme is designed to equip secondary school students with the essential skills and knowledge needed for successful applications to top universities in Hong Kong. Participants will learn from seasoned professionals, who provide invaluable insights into the university admission process. The course emphasises personalised skill development in crafting compelling personal statements, effective interviewing techniques, and strong presentation skills, while offering networking opportunities to build meaningful connections. Through hands-on workshops on LinkedIn optimisation and problem-solving techniques, students gain practical skills directly applicable to their applications and academic endeavours. The interactive learning environment fosters collaboration through group activities, mock interviews, and peer feedback, preparing students for their transition to university life. Additionally, the programme includes an exploration of top universities in Hong Kong, featuring guest speakers, in-depth discussions, and insights from current students, culminating in a reflection that empowers participants to take control of their academic futures.

# Ivy League Futures Tour

This unique programme offers a well-rounded perspective on studying in the United States, skillfully combining academic preparation, engaging group excursions, and a taste of independence. Designed for ambitious students aged 14-18, the tour provides a glimpse into undergraduate university life, enriching their understanding of academic pathways and inspiring their future aspirations. Students will immerse themselves in the world of science, technology, and innovation, experiencing firsthand what it's like to be a student at some of America's top universities.

The programme focuses on providing actionable insights into the admissions process and entry requirements at leading institutions. Students will gain an in-depth understanding of various university types, exploring campus life, academic culture, and specialised programmes through interactive tours and discussions with faculty and current students. The programme also offers personalised guidance on building a competitive academic and extracurricular profile, including workshops on crafting compelling personal statements and understanding the Common Application. With dedicated time for personal reflection and goal setting, participants will leave equipped not only with knowledge about U.S. university life but also with the skills and strategies needed to navigate their future college journeys successfully.

# US Innovation Camp

This programme is designed to inspire, challenge, and empower the next generation of innovators in the fields of science, technology, engineering, and mathematics (STEM). The carefully curated curriculum blends academic exploration with real-world applications, allowing students to tackle complex problems, experiment with cutting-edge technologies, and collaborate on projects that reflect real-life STEM challenges. Activities such as designing robots, building coding applications, and conducting laboratory experiments, alongside visits to renowned institutions like NASA's Goddard Institute and the American Museum of Natural History, are designed to spark curiosity and fuel a passion for discovery.

Beyond technical skills, the programme emphasises the development of essential life skills, including critical thinking, creativity, communication, and teamwork. Guided by experienced mentors, participants will explore various fields such as robotics, biotechnology, coding, and environmental science, all while preparing for future university-level STEM programmes. Located just a short distance from the vibrant innovation hub of New York City, students will also gain unparalleled access to the city's cultural landmarks and leading scientific institutions. This combination of rigorous STEM exploration and exposure to a dynamic urban environment ensures that students leave with newfound knowledge, a broader perspective, and lifelong memories.

## Where the Past Meets the Future

Participants will experience life in historic boarding houses while exploring the significance of the House system, notable alumni, and their legacies on Harrow on the Hill. This enriching programme is designed to cultivate independence, foster camaraderie, and enhance personal growth through cultural immersion. Students will engage in leadership challenges, create 'mini-houses,' and embody the spirit and traditions of this storied institution, all while gaining a profound understanding of residential learning.

The camp delves into the art of British debating and public speaking, empowering students to master the transformative power of eloquent expression. Engaging sessions will introduce them to historic debates and landmark speeches, fostering skills in persuasive communication. Beyond academics, a dynamic array of British sports and cultural activities awaits participants. Through these activities, they will not only deepen their understanding of British culture and history but also develop essential leadership qualities, teamwork skills, and confidence in their English language proficiency.

# Future CEO

The Future CEO Programme is the only programme in Hong Kong tailored for secondary school students, based on the Business Consulting Practicum Course at the University of Hong Kong Business School. This comprehensive curriculum is designed to equip aspiring leaders with essential skills in management consulting, marketing, and entrepreneurship, led by industry experts with over 25 years of experience.

As the programme progresses, students will delve into case analysis, market research using AI tools, and competitive research techniques. They will learn how to approach case studies effectively, utilise AI for market insights, and conduct competitive analyses using platforms like LinkedIn and Bloomberg. This hands-on learning experience culminates in practical exercises that encourage teamwork and critical thinking. Additionally, the curriculum includes vital topics such as online marketing fundamentals and brand marketing, where participants will understand audience targeting, branding strategies, and the global eCommerce landscape.

The final sessions of the programme focus on real-world application, including proposal writing, presentation skills, and professional networking through LinkedIn optimisation. Participants will refine their business proposals, practise their presentation delivery, and engage in mock interviews to prepare for future internships. The programme concludes with a company visit, where students will present their proposals to a CEO, gaining invaluable feedback and insights into business operations. This immersive experience not only enhances their strategic and creative skills but also prepares them to become confident leaders ready to make an impact in the business world.

## Innovators in Action

This one-of-a-kind residential camp offers students hands-on experiences, creative collaboration, and practical business insights in an immersive all-English environment. Each day presents new real-world “missions,” from diplomatic negotiations and cybersecurity threats to environmental crises and financial breakthroughs. Guided by elite British educators, participants not only learn about global issues but actively practice shaping solutions, integrating finance, entrepreneurship, and critical thinking into each scenario. The camp’s thematic days include engaging activities such as negotiating peace treaties, forming a cyber task force, conducting ecological research, and developing business strategies to survive a financial meltdown.

Throughout the week, students enhance their English communication skills and foster public speaking, persuasive messaging, and teamwork in realistic settings. They build cultural awareness and international perspectives through role-play and scenario-based learning, while also gaining core business knowledge in budgeting and strategy. Set within the historic Harrow environment, the camp provides an authentic British boarding experience, complete with structured routines, sports, and communal dining. By tackling daily challenges and engaging in reflection activities, participants develop resilience, confidence, and problem-solving skills that extend beyond the classroom, making this camp a transformative experience that blends interdisciplinary learning with practical application.

## International Leaders of Tomorrow (with Model Arctic Council)

This programme is an immersive diplomatic simulation that enhances traditional Model United Nations formats by focusing on realistic diplomacy characterised by intense negotiation and consensus-building. This unique programme offers secondary school students a taste of real-world international relations, beginning with two Learning Days filled with dynamic workshops and masterclasses on research methods, proposal writing, negotiation strategy, public speaking, and team-building. Guided by experts, participants draft and refine their own diplomatic proposals, laying the groundwork for deeper exploration into the complexities of Arctic and international governance.

Over the following three days, students assume the roles of Arctic ambassadors and high-level representatives in the only Model Arctic Council programme for secondary schools globally. They work collaboratively to debate and resolve pressing Arctic and global issues, ultimately drafting a jointly agreed diplomatic declaration. This immersive simulation encourages participants to seek consensus-based solutions, mirroring the collaborative nature of real-world diplomacy. Enriched by guest lectures and interactive sessions that delve into international politics, economics, geography, and Indigenous affairs, students develop a holistic understanding of global challenges while forging strong bonds with peers from diverse backgrounds.

The experience culminates in a celebratory finale dinner, honoring each student's achievements and the lifelong friendships formed through shared collaboration. Directed by Dr. Anthony Specca, a leading expert in Arctic governance and education, the programme empowers students with confidence, broader global perspectives, and a toolkit to shape a shared future. Participants gain valuable, transferable skills in leadership, critical thinking, and teamwork, preparing them for future academic and professional pursuits while inspiring them to engage with the challenges facing the Arctic and beyond.

## AI Playground

This programme offers students a foundational understanding of AI through a blend of theory and practical application. Engaging classes and interactive sessions explore AI's role in society, key principles, and hands-on projects, enabling participants to build basic AI models and generate content such as images and music. Developed by a Harrovian at Stanford University, the AI Playground is extensively used at the university and has been experimented with by thousands of students. Structured into three parts—discovering AI, exploring data science, and understanding neural networks—the curriculum includes hands-on exercises in data and image processing, culminating in training a simple neural network. This ensures that students gain valuable insights into the diverse applications of AI and its potential impact on their lives.

## Code Your World with VR

Students will embark on an exciting journey to create immersive virtual reality experiences, bringing their imaginations to life in settings ranging from lush forests to distant planets like Mars. Utilising HTML, JavaScript, and the A-Frame framework, they will learn to design realistic 3D environments by customising textures, elements, and interactions. Participants will explore how professional developers approach the creation of virtual worlds, focusing on key aspects such as placement, backgrounds, and genre. Over the course of 13 progressive projects, students will master the fundamentals of A-Frame alongside HTML, CSS, and JavaScript, culminating in a capstone project where they will design a unique scene in a sandbox environment. This hands-on experience will allow them to immerse themselves in their creations and easily share their work with friends and family.

## Little Chefs

This programme is designed for young minds eager to explore the world of food and cooking, offering a unique blend of hands-on culinary experiences, environmental education, and imaginative challenges. Participants will embark on a flavourful journey that enhances their cooking skills while broadening their understanding of sustainable practices through activities like “Dish Up Like Picasso & Rainbow Smoothie,” “Master the Art of Ramen,” “Gyoza Galore,” “Colorful Japanese Desserts,” and a culinary competition on the final day. Throughout the camp, students will develop important life skills by learning to follow recipes, measure ingredients, and use kitchen tools safely, while gaining insights into nutrition and healthy eating habits that foster independence and empower them to make better food choices in the future.

## Rugby and Hockey Heroes

This immersive programme emphasises fundamental ball skills—such as handling, rolling, throwing, striking, dribbling, and catching—which are essential for success in all sports. Participants will enjoy a beginner-friendly introduction to rugby, focusing on ball handling, evasive manoeuvres, and the excitement of passing and scoring. They'll also discover the fast-paced world of hockey, learning the art of dribbling, striking, and precise goal scoring. To keep the energy high, the camp features a variety of lively party games that promote running, evading, and honing ball skills, ensuring that every session is not only educational but also fun and engaging.

## Young LAMDA Learners

This engaging programme encourages our youngest learners to explore and enhance their communication skills through playful interactive games and poetry recitals. Drawing on the London Academy of Music and Dramatic Art (LAMDA) syllabuses, this comprehensive day camp, conducted in English, empowers participants to develop a powerful, clear speaking voice, fine-tune their presentation skills, and effectively express body language. The all-encompassing approach ensures that future leaders gain a significant edge in an ever-competitive landscape. Students will recite poems with confidence, develop clarity of diction, improve their posture, and exhibit appropriate body language. In the spotlight of the Young LAMDA Learners programme, participants will bring to life choral speaking pieces and may have the opportunity to perform solo, duo, or trio excerpts.

# FAMILY SPARK

- Bonding Through Character
- Parents Wellbeing Retreat

## Bonding Through Character

Join for a transformative day designed specifically for kindergarteners aged 3-5 years and their parents, focusing on the themes of love, communication, and gratitude. Participants will engage in captivating storytelling, interactive games, and teamwork challenges that foster communication and understanding between parent and child while enhancing bonding and storytelling skills. The day's fun activities aim to strengthen relationships and promote language development. At the conclusion of the programme, each participant will receive a certificate of completion to celebrate their journey together. Key outcomes include increased communication skills, enhanced parent-child bonding, development of storytelling abilities, and a boost in English language skills.

# LEADERSHIP

■ Future CEO

# Future CEO

The Future CEO Internship Programme is the only programme in Hong Kong tailored for secondary school students, based on the Business Consulting Practicum Course of the Hong Kong University Business School. This comprehensive curriculum is designed to equip aspiring leaders with essential skills in management consulting, marketing, and entrepreneurship. The course begins with an introduction to management consulting, where students will explore key concepts, the consulting process, and essential skills such as analytical thinking, communication, and problem-solving. Through case study discussions, participants will gain real-world insights into successful consulting projects, setting the foundation for their journey in business leadership.

As the programme progresses, students will delve into case analysis, market research using AI tools, and competitive research techniques. They will learn how to approach case studies effectively, utilise AI for market insights, and conduct competitive analyses using platforms like LinkedIn and Bloomberg. This hands-on learning experience culminates in practical exercises that encourage teamwork and critical thinking. Additionally, the curriculum includes vital topics such as online marketing fundamentals and brand marketing, where participants will understand audience targeting, branding strategies, and the global eCommerce landscape.

The final sessions of the programme focus on real-world application, including proposal writing, presentation skills, and professional networking through LinkedIn optimisation. Participants will refine their business proposals, practise their presentation delivery, and engage in mock interviews to prepare for future internships. The programme concludes with a company visit, where students will present their proposals to a CEO, gaining invaluable feedback and insights into business operations. This immersive experience not only enhances their strategic and creative skills but also prepares them to become confident leaders ready to make an impact in the business world.

- Code Your World with VR
- Game Changers
- Imagination Camp
- Invention Camp
- Smart Home Arduino

## Code Your World with VR

Students will embark on an exciting journey to create immersive virtual reality experiences, bringing their imaginations to life in settings ranging from lush forests to distant planets like Mars. Utilising HTML, JavaScript, and the A-Frame framework, they will learn to design realistic 3D environments by customising textures, elements, and interactions. Participants will explore how professional developers approach the creation of virtual worlds, focusing on key aspects such as placement, backgrounds, and genre. Over the course of 13 progressive projects, students will master the fundamentals of A-Frame alongside HTML, CSS, and JavaScript, culminating in a capstone project where they will design a unique scene in a sandbox environment. This hands-on experience will allow them to immerse themselves in their creations and easily share their work with friends and family.

## Imagination Camp

Imagination Camp is designed to unlock every student's incredible creativity through a thrilling adventure of self-expression and creation. Participants engage in a diverse range of activities, from city design to acting, storytelling, and art, all aimed at building confidence and encouraging innovative thinking. Over four days, students will design their own city, create tourist attractions, and explore sustainable tourism solutions for the future. The camp emphasises hands-on learning, collaboration, and problem-solving, fostering skills such as curiosity, teamwork, and communication. With expert feedback to elevate their ideas, young creators will leave the camp equipped with the skills and confidence to bring their visions to life and prepare for tomorrow's challenges.

# Invention Camp

At Invention Camp, students embark on an exhilarating journey into innovation and entrepreneurship, engaging in fun invention-based challenges like designing the next toy craze. Over four days, participants develop their own original invention and prototype while honing essential skills such as creative thinking, teamwork, and communication. The programme includes hands-on learning that transforms ideas into working prototypes, encourages exploration of STEM concepts, and fosters an entrepreneurial mindset. Students will collaborate to create cohesive final products, develop problem-solving abilities, and build confidence in presenting their inventions, all while preparing to tackle tomorrow's challenges and opportunities.

- Bugs, Birds & Branches: Junior Ecologist Camp
- The Ski Slope (Verbier)

# Bugs, Birds & Branches: Junior Ecologist Camp

The Junior Ecologist Camp is an immersive three-day programme designed to spark students' curiosity about nature through interactive lectures and field trips. Participants will explore the fundamentals of forest ecology and biodiversity, engaging with the unique "Law of the Forest" board game focused on Hong Kong's ecosystems. They'll learn about food chains and the impact of human activities while building insect hotels to appreciate the essential role insects play in the ecosystem. Creativity will flourish during a keychain design activity, symbolising harmony with birds. Students will also explore country parks and one of Hong Kong's mature secondary forests, gaining hands-on experience with plants, insects, and birds, and fostering a deeper connection to nature through engaging activities led by professional docents.

# The Ski Slope (Verbier)

This immersive programme features a daily schedule led by expert coaches, animators, and mountain guides, allowing participants to enhance their skiing and snowboarding skills against the breathtaking backdrop of the Matterhorn. With access to Verbier's 410 km of slopes, students can enjoy exhilarating activities tailored to all skill levels. Located at an altitude of 2,200 metres, the private mountain restaurant welcomes students for warm lunches with unbeatable views of Verbier and some of Switzerland's iconic peaks.

The après-ski experience is equally thrilling, with evening activities designed to foster teamwork, leadership, and communication skills. Students can participate in a variety of engaging options such as torchlight walks, campfires, baking, and ice skating. Each evening offers something unique, ensuring a varied experience. Additionally, participants have the opportunity to embark on exciting excursions to renowned regions, enhancing decision-making skills and independence while creating unforgettable memories in the stunning Swiss Alps.

# ARTS

- LAMDA Public Speaking (Junior, Intermediate, Advanced)
- LAMDA Acting (Junior, Intermediate, Advanced)

# LAMDA Public Speaking (Junior, Intermediate, Advanced)

Using the esteemed syllabuses of the London Academy of Music and Dramatic Art (LAMDA), this programme offers a comprehensive journey through the art of effective communication, tailored for three skill levels: Junior, Intermediate, and Advanced. In the Junior class, students focus on foundational verbal and non-verbal communication techniques to build confidence and foster positive body language, enabling them to connect effectively with their audience. The Intermediate class delves deeper, emphasising structured speech preparation, articulation, and critical thinking, allowing students to engage thoughtfully and confidently with their topics and audience. At the Advanced level, participants refine their understanding of speech structure and audience engagement, learning to utilise visual aids and prepare for impromptu speaking while exploring various speech styles. Throughout the programme, students will enhance their posture, clarity of speech, and ability to maintain meaningful conversations, ultimately acquiring the skills necessary to captivate and inform their audiences across diverse contexts, all in alignment with LAMDA's esteemed standards.

# LAMDA Acting (Junior, Intermediate, Advanced)

The LAMDA Acting programme offers a structured pathway for aspiring performers, divided into three levels: Junior, Intermediate, and Advanced. The Junior class lays a strong foundation in acting, expression, and communication, focusing on body awareness, vocal projection, and emotional expression to develop confidence and clarity. As students progress to the Intermediate level, they enhance their performance skills, embracing creativity to bring characters to life with emotional depth and vocal contrast, while engaging audiences through effective body language and staging techniques. At the Advanced level, participants delve into complex monologues from various historical periods, refining their interpretation and delivery techniques while demonstrating a mature understanding of their material. Throughout the programme, students will improve their posture, concentration, and ability to converse thoughtfully about their performances, ultimately cultivating the skills necessary to captivate audiences across diverse contexts.

# COMMUNICATIONS

- English Immersion Programme  
(Beginner, Intermediate and Advanced)

# English Immersion Programme (Beginner, Intermediate, Advanced)

Divided into Beginner, Intermediate, and Advanced levels based on approximate IELTS scores, the programme enhances speaking and presentation skills through immersive English activities. Participants engage in hands-on tasks, writing components, and a mock IELTS test, all guided by a team of qualified staff, including British Oxbridge graduates and experienced teachers.

With a focus on theme-based learning, students explore topics such as pronunciation, British history, and creative writing, fostering collaboration and critical thinking. The programme culminates in final presentations, ensuring participants not only improve their language proficiency but also gain insights into British culture and history.

Featuring small class sizes, sports, cultural workshops, and evening programmes like movie nights and quiz competitions, this camp creates an engaging environment. Participants will leave equipped with the confidence and skills necessary for academic and professional success, making this an unforgettable opportunity to enhance their English proficiency while immersing themselves in a vibrant cultural experience.

# STEM

- TechReady (Beginner, Intermediate, Advanced)

# TechReady (Beginner, Intermediate, Advanced)

The TechReady course offers a comprehensive journey through the world of technology, divided into three levels: Beginner, Intermediate, and Advanced.

Technology and Me (Beginner) invites new explorers to connect with technology through entry-level Guided Projects that encourage sharing personal experiences and interests. Students will gain foundational skills in HTML and CSS while exploring basic JavaScript concepts. They will create their own personal web pages, blogs, quiz games, and other digital artefacts, learning the essentials of web design along with critical digital skills such as design thinking, prototyping, and digital citizenship.

In Technology and the Community (Intermediate), students will delve into community-themed projects, such as developing a mobile app, designing a health logger, and creating a multi-page website for a community organisation. Building on their previous knowledge, they will enhance their skills in HTML, CSS, and JavaScript while focusing on advanced coding concepts. Students will also learn best practices in digital design to optimise user experience, along with data analysis and digital communication techniques.

Finally, Technology and the World (Advanced) engages students in advanced-level Guided Projects that explore global technology themes, including artificial intelligence and game development. With an increased emphasis on JavaScript programming, students will create projects like a scrolling video game and a virtual jumper game, while also examining how artificial intelligence is applied in art and music. Additionally, they will explore ethical decision-making related to AI technologies and video games, preparing them for a future in a tech-driven world.

# TERMS AND CONDITIONS

The following are the general policies and terms and conditions which apply to all our programmes, unless otherwise specified, to ensure the quality of our programmes, their administration and the safety of the participants and staff who take part in them. Please take a moment to review our policies and terms and conditions below.

## 1. CAMPS ADMINISTRATION

### Applications and payment

- Places are allocated on a first-come-first-served basis.
- Camp fees need to be fully paid upon enrolment. We have the right to exclude participants from camps for the non-payment of fees.
- You are asked to inform the office in writing should you wish to make any changes after the application is submitted. Please see below for our policies on withdrawals and change of booking.
- Please check the time, date, venue and the prerequisites carefully as outlined on the schedule.
- The booking is non-transferable.

### Policy on Withdrawal, Absence, Cancellations

- Booking confirmation will be sent to you by email. Camp reminders will be sent to you 2 weeks before the first day of camp. Please regularly check your email, including your spam folder, to ensure you receive our messages. If you're not receiving our emails, check your junk mail and confirm that we have updated your contact details. We cannot be held responsible for missed camps due to unread emails or messages landing in your spam folder.
- To ensure swift communication during emergencies, participants must provide at least one emergency contact with a local phone number. In the event of an accident, we will immediately call this number. If we cannot reach you, we will send an email to notify you of the incident.
- If you're unsure about the contact details you provided, please email us at [info@aisloutdoor.com](mailto:info@aisloutdoor.com) to update your information. Having accurate contact details is crucial for our Child Protection Policy. Remember, opting out of email communication may result in missing essential information about your child's programs.

## 2. POLICY ON WITHDRAWAL, ABSENCE, CANCELLATIONS

### Applications and payment

- Participants who successfully enrol in a camp are entitled to a cooling-off period of 7 days from the date of purchase. For example, if a purchase is made on 1 July at 4 PM, the cooling-off period will conclude on 8 July at 4 PM. This period allows participants the opportunity to reconsider their enrolment and request a refund if necessary.
- Please note that the cooling-off period applies only to purchases made up to 60 days prior to the start date of the registered camp. All requests for withdrawal or changes to bookings must be submitted in writing to [info@aisloutdoor.com](mailto:info@aisloutdoor.com).

### Refund and Change of Booking Eligibility

Conditions	Hong Kong & Mainland China Programme	Overseas Programme (Outside China)

<b>Sick Leave / Injuries</b>	<p>In situations where a participant is physically unfit to meet the camp's requirements, provided we receive a professional evaluation or documentation from a registered doctor within 7 days from the date the parents/guardian first report the issue., Upon receiving this documentation, we will offer a change of booking or a refund. with the conditions below:</p> <p><b>Change of Booking</b></p> <p>You may apply to join another camp within the same camp period (Summer: 1-31 July ; Winter: 14-31 Dec; Holiday Camps: rescheduling is not possible.), subject to camp availability.</p> <p><b>Withdrawal</b></p> <p>80% refund will be offered if we receive your notice before a camp commences. No refund and change of class will be provided after a camp commences.</p>	Bank charges to be borne by participants.
<b>Withdrawal, absence, early departure after a camp commences</b>	No refund or change of class will be provided, irrespective of the reasons after the camp commences. This policy applies to all cases of withdrawal.	
<b>Inclement Weather &amp; other force majeure</b>	<p>Under inclement weather conditions (e.g. Red/black rainstorm signals, T8 or above) or other force majeure events, no refund will be provided.</p> <p>Please refer to our Inclement Weather Procedures.</p>	No refund will be provided.

### Cancellation due to insufficient participants

- If the camp does not reach the minimum number of participants, as indicated on the registration website, two weeks prior to the camp start date, AISL OUTDOOR reserves the right not to organize the camp. In such cases, a full refund will be provided to all registered participants, or such participants may apply to join another camp within the same camp period.

### Change of camp dates, times and venues

- AISL OUTDOOR reserve the right to change camp times, venues and dates at our discretion. Parents will be notified of any changes in advance as soon as possible. If the participant is not able to join a reorganised camp which may be held in a different timeslot or in a different location that he/she originally applied for, a full refund will be offered to all registered participants, or such participants may apply to join another camp within the same camp period.

### Refund Request

- If you wish to make a refund and withdrawal request, you are required to submit a refund form through email within 14 days after we have provided you the form. If we do not receive the form within 14 days, your request for a refund will be considered forfeited.
- Refund will be made within 60 working days after we receive a properly completed and signed refund application form from the participants requesting the refund, along with valid supporting documents.
- Refunds requested by participants for personal reasons, particularly those involving remittances to overseas accounts, may have any associated bank charges deducted from the refund amount.
- All refund requests are subject to the sole decision of AISL OUTDOOR.

---

## 3. PARENT AND GUARDIAN RESPONSIBILITIES

- Parents and/or guardians are responsible for the transportation, pickup and drop-off arrangement of the participants to and from the programme venue and the travelling arrangements including visa applications (if applicable) of the participants.
- Camps will finish on time. Please ensure you pick up your child promptly at the end of the camp. If your child is self-dismissed, you are required to submit the self-dismissal authorization form to us before the first day of camp. Without receiving the form, we couldn't allow your child to leave due to our safeguarding policy, and costs incurred due to such an arrangement will be charged. AISL OUTDOOR reserves the right to determine whether a child may self-dismiss, regardless of the receipt of an authorization form, to ensure the child's safety.
- You are also required to provide the contact details of the person who is picking up your child to us.

---

## 4. SAFETY

- Participants are expected to abide by the regulations of the facility. This will be strictly enforced, and we reserve the right to ask anyone who does not abide by the rules or behaves unreasonably to leave immediately. No refund or credit will be available under such circumstances.
- AISL OUTDOOR, our coaches and our teachers are not responsible for any injury to participants, or damage or loss of property because of participation in our camps.
- In case of a medical emergency, your child will be transferred to the nearest hospital using the local Government Emergency Medical Unit.

---

## 5. INFORMATION POLICY

- Information provided by you on your application form will be used for the purposes of processing your application for enrolment; and administration after enrolment.
- The data we collect will be kept confidential. You have the right to obtain access to and request correction of any information concerning you and your child held by us. Requests for such access should be made in writing.
- We reserve the right to amend our policies from time to time.
- Please read our Privacy Policy.

---

## 6. CHILD SAFEGUARDING POLICY

AISL OUTDOOR have a duty of care towards children in their charge and ensure always that the safety and protection of the child comes first - whether presented with an actual hazard, or in relation to any form of abuse. Each coach and teacher shall comply with AISL OUTDOOR's safeguarding requirements. Any matters of child protection or safety should be raised with us by email at [info@aisloutdoor.com](mailto:info@aisloutdoor.com).

---

## 7. CODE OF CONDUCT

We value the relationship we have with our parents and participants, and strive to treat one another with respect and dignity, and offer support where needed. In turn we have an expectation that parents and caregivers of children attending any of our programmes follow the same principles

### All parties should

#### Respect

- treat one another with respect
- respect the beliefs, cultures and opinions of others even if you disagree
- respect the confidentiality of the situation and the privacy of individuals involved

#### Support

- follow the procedures and practices of the programme and if you disagree with something, talk to the coach/teacher first
- privacy of individuals involved

#### Ethical Communication

- use appropriate communication skills
- use non-judgmental, respectful language
- stay calm and relaxed
- seek advice whenever appropriate

#### Ethical Conduct

### We ask that parents and caregivers and participants please

- don't smoke anywhere on school premises or on school premises or sports facility
- don't possess, use or be under the influence of alcohol or illegal drugs on school premises
- do not take any photographs or video/audio recordings without AISL OUTDOOR's permission.
- don't harass or abuse any person or use profanity

### Participants should

- follow the rules in the camp
  - behave and dress appropriately
- 

## 8. PHOTOS / VIDEOS GUIDELINES

- AISL OUTDOOR coaches, teachers and staff may occasionally use cameras and take photos and videos during camps for use in promotional publications and on our website.
  - These images/videos will not be passed onto third parties.
  - If parents do not wish us to use photos that include their child, please advise us on the application form or inform us at [info@aisloutdoor.com](mailto:info@aisloutdoor.com).
- 

## 9. INSURANCE COVERAGE

- AISL Outdoor and its Operations Providers are responsible for the public liability insurance coverage. This specific third-party risk insurance is structured to offer compensation in the event of financial losses stemming from unfortunate incidents involving the death or bodily injury of a third party. These incidents are directly related to shared areas and facilities within the premises, including but not limited to elevators, staircases, fire service installations, and other communal amenities.
- We strongly recommend that our participants purchase their own personal travel or personal accident insurance coverage at their own expense. This proactive step is instrumental in ensuring comprehensive protection for their individual interests and overall well-being during their engagement with our services. This supplementary insurance coverage serves as an additional layer of security and offers a safeguard against unforeseen circumstances and provides a vital safety net for our participants.

## INCLEMENT WEATHER PROCEDURES

### ■ HONG KONG PROGRAMME

In the event of adverse weather conditions in Hong Kong, the camp will be cancelled if it cannot proceed as scheduled. Upon improvement of weather conditions, the camp will resume promptly without the need for postponement or supplementary sessions. Parents are advised to stay informed through announcements on radio, television, or the “GovHK Notifications” mobile application during rainstorms and other extreme weather conditions. Please visit the following Hong Kong Observatory webpage: [https://www.hko.gov.hk/en/wxinfo/rainfall/item\\_list.htm](https://www.hko.gov.hk/en/wxinfo/rainfall/item_list.htm)

#### BEFORE THE CAMP COMMENCES:

Conditions	Corresponding measures
When Tropical Cyclone Warning Signal No. 1 is issued	Camps are to operate as usual unless advised otherwise.
When Tropical Cyclone Warning Signal No. 3 or above is issued before 6:15 am	Camps are to operate as usual unless advised otherwise.
When Tropical Cyclone Warning Signal Pre- No. 8 / No. 8 or above is issued before 6:15 am	Camps are to be suspended. Camp starts at 9am the following day if any signal is cancelled.
When Tropical Cyclone Warning Signal No. 8 or above is replaced by Signal No. 3 at 6:15am.	Camps are to operate as usual unless advised otherwise by AO.
When Amber Rainstorm Warning Signal is issued	Camps are to operate as usual unless advised otherwise.
When Red/Black Rainstorm Warning Signal or extreme weather conditions is issued from 6:15 am	Camps are to be suspended. Camp starts at 9am the following day if any signal is cancelled.
When Red/Black Rainstorm Warning Signal or extreme weather conditions is cancelled before 6:15 am	Camps are to operate as usual unless advised otherwise.

#### AFTER THE CAMP COMMENCES:

If there is heavy rain and thunderstorms, outdoor activities will be moved indoors for the safety of the participants. If there is heavy rain or other extreme weather that prevents the activities from proceeding as planned, we will shorten the day’s schedule or dismiss early based on the actual situation.

### ■ MAINLAND CHINA & OVERSEAS PROGRAMME

For camps in Mainland China and overseas, AISL Outdoor will adhere to local government orders and policies concerning public health and inclement weather situations. We reserve the sole discretion to determine whether the event will proceed, prioritizing the safety, health, and well-being of all participants.

#### PRECEDENCE OF ENGLISH VERSION

The English version of the Terms and Conditions shall prevail in case of any discrepancy or inconsistency between the English version and its translation in Chinese or other languages.
